THE SERVICE SECTOR IN THE CREATION
OF GROSS ADDED VALUE IN BULGARIAN ECONOMY

Assist. Prof. Silvia Gospodinova

Abstract

In the article there are analyzed the changes in the sector structure of Bulgarian economy for the period 1997 - 2008, as well as the internal structure of production in the service sector, since that is the sector, in which a great part of the activities have an even greater development potential. In this connection there is traced out the rate of structural changes that have taken place in Bulgarian economy and there are outlined the main trends in the produced gross added value in the service sector as a whole compared to the other sectors, and also the development of that indicator for individual activities within the sector.
