**POSSIBILITIES FOR VOCATIONAL EDUCATION AND TRAINING IN THE
AREA OF MANAGEMENT OF INVESTMENT PROJECTS IN BULGARIA**

Assist. Prof. Vanya Antonova

Abstract

Possessing the necessary knowledge, skills and competences in the area of project management is a compulsory condition and major prerequisite for achieving professional management. In the article there are studied the possibilities for vocational education and training in the area of project management, specifically the management of investment projects. The analysis is built on types of institution, encompassing both the system of vocational education and training (including professional secondary schools and vocational training centres), and the system of higher education (including the conditions for continuing vocational training).

Keywords: projects, management of investment projects, vocational education and training.
