

**DISCLOSURE OF ENVIRONMENTAL PROTECTION COSTS –
THEORETICAL ASPECTS AND PRACTICAL
REALIZATION IN BULGARIA**

Assist. Prof. Tsvetomir Manolov

Abstract

In the present article there are discussed the issues connected with the disclosure of environmental protection costs. There has been conducted a practical study of the information that is disclosed and is accessible to external users of information. For the study there has been used information from the websites of the companies and their annual financial reports for 2010.
